JOURNAL OF PATHOLOGY, VOLUME 138

INDEX OF SUBJECTS

PAGE

ARTERIES, GLOMIC, structure of . . . 205

BCG, chondro-osseous changes in cerebro-oculo-facial-skeletal (COFS) syndrome 33
BLADDER, comparative histology following initial infection and re-infection with *Escherichia coli* in the mouse . . . 353
BLOOD, small-scale isolation and characterisation of human peripheral blood monocytes 1
BREAST, CARCINOMA, changes induced by local injection of human lymphoid cell lymphokine into dermal metastases of breast carcinoma: a light and electron microscopical study 309

CANCER, advanced: histological features of skin reactions to human lymphoid cell line lymphokine in patients with . . 289
changes induced by local injection of human lymphoid cell lymphokine into dermal metastases of breast carcinoma: a light and electron microscopical study 309
CARCINOGENESIS, experimental: towards economy of effort in quantitative ultrastructural pathology, efficient sampling schemes for the study of . . 179
CARDIAC COLLOID. Type 1: an ultrastructural study of the origin and function of basophilic degeneration in human cardiac muscle 337
CAROTID BODY hyperplasia 115
structure of the glomic arteries . . . 205
CEREBRO-OCULO-FACIAL SKELETAL SYNDROME, chondro-osseous changes in . 33
CHONDROCYTES, changes in COFS syndrome 33
COLON, X-ray microanalysis of the Michaelis-Gutmann bodies of malakoplakia 41
CYCLOSPORIN A toxicity in the rat . . . 163
CYTOPHOTOMETRY, assessment of the surface charge of single resident and exudate macrophages and multinucleate giant cells 17

DEGENERATION, BASOPHILIC in human cardiac muscle–cardiac colloid: Type 1: ultrastructural study of the origin and function of 337
DENTAL AMALGAM implanted subcutaneously into guinea-pigs: tissue reactions examined after varying time periods 251
DUCHENNE MUSCULAR DYSTROPHY, phagocytosis of the A band following Z line, and I band loss. Its significance in skeletal muscle breakdown . . . 129

ECCHONDROSES, tracheopathia osteoplastica: study of the minimal lesion . 235
ELECTRON MICROSCOPY, TRANSMISSION, changes induced by local injection of human lymphoid cell lymphokine into dermal metastases of breast carcinoma 309
localisation of fribronectin in mouse kidney 25
origin and function of basophilic degeneration in human cardiac muscle–cardiac colloid. Type 1 . . 337
severity of glomerulonephritis induced in different strains of suckling mice by infection with lymphocytic choriomeningitis virus: correlation with amounts of endogenous interferon and circulating immune complexes . . 325
structure of the glomic arteries . . . 205
studies of the relationship between proteinuria and glomerular ultrastructural change in hyperalbuminaemic female Wistar rats 365
tissue reactions to implanted dental amalgam 251
towards economy of effort in quantitative ultrastructural pathology: efficient sampling schemes for studying experimental carcinogenesis 179
toxicity of the immune suppressant Cyclosporin A in the rat 163
ESCHERICHIA COLI, comparative histology of the mouse bladder following initial infection and re-infection with . . . 353

FIBRONECTIN, ultrastructural localisation of fibronectin in mouse kidney . . . 25

GIANT CELLS, assessment of the surface charge of single resident and exudate macrophages and 17
GLOMERULI, studies on the relationship between proteinuria and glomerular

PAGE

ultrastructural change in hyperalbuminaemic female Wistar rats . . 365
GLOMERULONEPHRITIS, severity of, induced in different strains of suckling mice by infection with lymphocytic choriomeningitis virus: correlation with amounts of endogenous interferon and circulating immune complexes . . 325
GRANULOMA, comparison of mycobacterial granulomas in guinea-pig lymph nodes 219
tissue reactions to implanted dental amalgum, including assessment by energy dispersive X-ray micro-analysis 251
GRANULOMA, LETHAL MIDLINE, malignant histiocytosis presenting as 241
GUINEA-PIGS, comparison of mycobacterial granulomas in lymph nodes . . . 219
morpho-functional patterns of kidney injury in experimental leptospirosis (*L. icterohaemorrhagiae*) 145
phagocytosis of the A band following Z line, and I band loss. Its significance in skeletal muscle breakdown . . . 129
tissue reactions to implanted dental amalgam, including assessment by energy dispersive X-ray micro-analysis 251

HAMSTER, towards economy of effort in quantitative ultrastructural pathology: efficient sampling schemes for studying experimental carcinogenesis . . . 179
HEXACHLORO 1:3 BUTADIENE, necrosis of the pars recta (S_3 segment) of the rat kidney produced by 99
HISTIOCYTOSIS, MALIGNANT, presenting as lethal midline granuloma: immunohistological study 241
HYPERPLASIA of the carotid body . . . 115
HYPOXAEMIA, histopathology of hyperplasia of the carotid bodies studied in six cases of 115
structure of the glomic arteries in . . . 205

IMMUNITY, toxicity of Cyclosporin A in the rat 163
IMMUNOCYTOCHEMISTRY, malignant histiocytosis presenting as lethal midline granuloma 241
IMMUNOFLUORESCENCE, response of the murine lymphoid system to a chronic infection with *Trypanosoma congolense*. The lymph nodes, thymus and liver 273
INFECTION, comparative histology of the mouse bladder following initial infection and re-infection with *Escherichia coli* 353
INTERFERON, glomerulonephritis in mice . 325
IRRADIATION, proctitis cystica profunda and radiation fibrosis in the rectum of the female Wistar rat after 193

PAGE

KIDNEY, morpho-functional patterns of injury in the experimental leptospirosis of the guinea-pig (*L. icterohaemorrhagiae*) 145
necrosis of the pars recta (S_3 segment) in the rat produced by hexachloro 1:3 butadiene 99
toxicity of the immune suppressant Cyclosporin A in the rat 163
ultrastructural localisation of fibronectin in the mouse 25

LEPTOSPIROSIS, experimental study in the guinea-pig: morphofunctional patterns of kidney injury in 145
LIVER, thymus and lymph nodes: response of the murine lymphoid system to a chronic infection with *Trypanosoma congolense*. 273
LYMPH NODE, comparision of mycobacterial granulomas in guinea-pig . 219
response of the murine lymphoid system to a chronic infection with *Trypanosoma congolense* 273
LYMPHOCYTIC CHORIOMENINGITIS virus used to study severity of glomerulonephritis induced in different strains of suckling mice: correlation with amounts of endogenous interferon and circulating immune complexes . . 325
LYMPHOKINE, changes induced by local injection of human lymphoid cell lymphokine into dermal metastases of breast carcinoma: light and electron microscopical study 309
histological features of skin reactions to human lymphoid cell line lymphokine in patients with advanced cancer . . 289
LYMPHOMA, malignant histiocytosis presenting as lethal midline granuloma: immunohistological study 241

MACROPHAGES, assessment of the surface charge of single resident and exudate macrophages and multinucleate giant cells 17
MALAKOPLAKIA, X-ray microanalysis of the Michaelis-Gutmann bodies of . . . 41
METASTASES, changes induced by local injection of human lymphoid cell lymphokine into dermal metastases of breast carcinoma: light and electron microscropical study 309
MICE, comparative histology of the bladder following initial infection and re-infection with *Escherichia coli* . . . 353
response of the lymphoid system to a chronic infection with *Trypanosoma congolense*: lymph nodes, thymus and liver 273

PAGE

severity of glomerulonephritis induced in different strains of suckling mice by infection with lymphocytic choriomeningitis virus: correlation with amounts of endogenous interferon and circulating immune complexes . . 325
ultrastructural localisation of fibronectin in the kidney 25
MICHAELIS-GUTMANN BODIES of malakoplakia, X-ray microanalysis of . . . 41
MONOCYTES, small-scale isolation and characterisation of human peripheral blood 1
MORPHOMETRY, hyperplasia of the carotid body 115
towards economy of effort in quantitative ultrastructural pathology: efficient sampling schemes for studying experimental carcinogenesis 179
MUSCLE, CARDIAC, ultrastructural study of the origin and function of basophilic degeneration in 337
MUSCLE, STRIATED, phagocytosis of the A band following Z line, and I band loss. Its significance in skeletal muscle breakdown 129
MYCOBACTERIUM LEPRAE, comparison of granulomas in guinea-pig lymph nodes 219

PHAGOCYTOSIS of the A band following Z line, and I band loss. Its significance in skeletal muscle breakdown . . . 129
POLYMYOSITIS, A band phagocytosis in muscle breakdown 129
PROCTITIS CYSTICA PROFUNDA and radiation fibrosis in the rectum of the female Wistar rat after X irradiation: histopathological study 193
PROSTATE, X-ray microanalysis of the Michaelis-Gutmann bodies of malakoplakia 41
PROTEINURIA and glomerular ultrastructural change in hyperalbuminaemic female Wistar rats . . 365

RADIOLOGY, chondro-osseous changes in cerebro-oculo-facial-skeletal (COFS) syndrome 33
Michaelis-Gutmann bodies of malakoplakia 41
RAT, necrosis of the pars recta (S_3 segment) of the kidney produced by hexachloro 1:3 butadiene 99
proctitis cystica profunda and radiation fibrosis in the rectum after X irradiation: histopathological study . . 193
studies on the relationship between proteinuria and glomerular ultrastructural change in hyperalbuminaemia . . . 365
toxicity of the immune suppressant Cyclosporin A 163

PAGE

RECTUM, proctitis cystica profunda and radiation fibrosis of the female Wistar rat after X irradiation: histopathological study 193
RENAL TUBULAR NECROSIS in the rat produced by hexachloro 1:3 butadiene . 99

SAMPLING schemes for studying experimental carcinogenesis: towards economy of effort in quantitative ultrastructural pathology 179
SKIN, METASTASES of breast carcinoma, changes induced by local injection of human lymphoid cell lymphokine into . 309
SKIN REACTIONS to human lymphoid cell line lymphokine in patients with advanced cancer: histological features of . 289
SYNOPSES OF PAPERS—Pathological Society of Great Britain and Ireland, 144th meeting; 5–8 January 1982
Morphometry of small non-random tissues by physical randomisation, by B. M. J. Stringer, D. Wynford-Thomas and E. D. Williams 49
Desensitisation of rat thyroid to the growth-stimulating action of TSH, by D. Wynford-Thomas, B. M. J. Stringer and E. D. Williams 49
Immunohistochemical localisation of tissue receptors using the dinitrophenyl (DNP) hapten sandwich procedure, by B. Jasani, G. R. Newman, D. R. Stanworth and E. D. Williams . . . 50
Immunoperoxidase quantitation employing hapten labelled antibodies in a model system, by D. A. Millar, B. Jasani and E. D. Williams 50
Prolactin cells in the pituitaries of patients with biochemical evidence of prolactinoma, by Anne M. McNicol, G. M. Teasdale, D. Doyle and G. Beastall . 51
A morphological study of the effects of vasopressin on the pituitary-adrenal axis, by C. J. R. Stewart and Anne M. McNicol 51
Nuclear diameters in hyperplastic and adenomatous parathyroid disease, by S. S. Banerjee, B. Faragher and P. S. Hasleton 51
Hypercalcaemic osteomalacia: the role of aluminium toxicity in its pathogenesis in chronic renal failure, by B. F. Boyce, H. Y. Elder, G. S. Fell, A. Ferguson, I. T. Boyle and B. J. R. Junor 52
Vitamin D deficiency and osteomalacia in patients with femoral neck fracture, by B. F. Boyce, J. E. Scullion, J. Beastall, A. Ferguson, R. Cowan, I. Fogelman and I. T. Boyle 52
Effect of aluminium on the phosphatases of rat bone and relationship to the

PAGE

pathogenesis of vitamin D-resistant osteomalacia in haemodialysed patients, by G. D. Smith and B. F. Boyce 53
Production of experimental arthritis in a primate, by D. L. Gardner and I. S. Alexander 53
IgA nephropathy, by Anne M. McNicol, Anna Moseley, M. Boulton-Jones, P. G. Toner and A. L. C. McLay . . 54
The ultrastructural changes in the rat renal glomerulus following intravenous administration of vinblastine sulphate, by T. P. Rollason and D. B. Brewer . 54
Extra-tubular deposits of Tamm-Horsfall protein in renal allografts, by A. J. Howie and D. B. Brewer 54
Neutrophil myeloperoxidase activity in chronic infection and cystic fibrosis, by J. A. Raeburn, M. Grant, M. J. Kowolik, I. P. Gormley and R. Sutherland 55
Evidence that the killing of *Mycobacterium tuberculosis* by chloroquine-treated cultured macrophages is cell-mediated and not direct, by P. D'Arcy Hart 55
The effect of influenza virus on the adherence of *Haemophilus influenzae* to human cells in tissue culture, by B. S. Draser, D. A. Broadbent, R. C. George, A. Knight and G. F. Mann . 56
The binding of Type III Group B streptococci to buccal epithelial cells, by J. Bagg, P. W. Ross and D. M. Weir . . 56
Prevention of maternal transmission of Group B streptococci (GBS) by antibiotics given during labour, by C. S. F. Easmon, M. J. G. Hastings, J. Deeley, B. Bloxham and R. Marwood . . . 56
Antibody profiles in local and disseminated gonococcal infection, by S. G. Hadfield and A. A. Glynn . . . 57
Caprine and ovine mycoplasma that resemble the causative mycoplasma of contagious bovine pleuropneumonia (CBPP), by G. R. Smith and Janet C. Oliphant 57
Antibody-linked red blood cell assays in rapid virus diagnosis: experience with respiratory syncytial virus, by M. P. Cranage 57
Gardnerella vaginalis in male patients, by C. A. Ison, S. G. Dawson and C. S. F. Easmon 58
Clostridium difficile toxin induces intestinal secretion in rabbit ileum *in vitro*, by S. Hughes, G. Warhurst, N. Higgs, L. G. Guigliano, B. S. Drasar and L. A. Turnberg 58

PAGE

Analysis of polypeptide patterns of viridans streptococci by sodium dodecyl sulphate-polyacrylamide gel electrophoresis, by Mary Synnott, R. Wassell and G. R. B. Skinner 59
Preliminary experiments towards cloning the toxin gene of *Vibrio cholerae*, by A. Kelly, M. Gennaro, D. B. Young and D. A. Broadbent 59
Gene transfer in *Vibrio cholerae*, by D. A. Broadbent and D. B. Young . . . 60
Extracellular protease activity of *Vibrio cholerae*, by D. B. Young and D. A. Broadbent 60
Response of a virally-induced salivary tumour to chemotherapy agents *in vitro* and *in vivo*, by P. J. Lamey, A. J. Street, M. M. Ferguson and N. G. L. Harding 61
Agglutinating antibody in murine *Borrelia duttoni* infection, by R. J. Carman and D. J. M. Wright 61
Pathogenesis of herpes simplex in congenitally athymic mice: the relative roles of cell-mediated and humoral immunity, by A. K. Kapoor, A. A. Nash, P. Wildy and C. S. McLean . . 62
The physicochemical basis of surface interactions between bacteria and cells, by O. Stendahl and K.-E. Magnusson . 62
The biomechanics of ingestion and degranulation, by J. H. Hartwig . . . 63
Nature of oxygen species produced by stimulated phagocytic cells, by H. O. Hill 63
The role of oxygen metabolites in phagocytic microbicidal activity, by R. B. Johnston, Jr 63
How macrophages kill tubercule bacilli, by D. B. Lowrie 64
Electron transport and microbial killing in phagocytes, by O. T. G. Jones . . . 65
Antimicrobial granule associated proteins of polymorphonuclear leucocytes, by J. K. Spitznagel 65
Characterization of a membrane-active bactericidal neutrophil protein, by P. Elsbach 65
Primary biliary cirrhosis—an increased incidence of extrahepatic malignancies, by F. Jarrett 66
Interferon induced hepatic necrosis in neonatal mice, by J. Moss, D. F. Woodrow, J. C. Sloper, Y. Rivière, J. C. Guillon, L. Morel-Maroger and I. Gresser 66
Disorganization of intermediate filament structure in alcoholic and other liver diseases, by C. Barbatis, J. Morton, J. Woods and J. O'D. McGee . . . 67

PAGE

The subepithelial neurosecretory cells of the human appendix: an integral part of a regulatory plexus in the lamina propria, by J. Rode, L. Papadaki, A. P. Dhillon and F. E. Dische 67

The peptide-containing enteric nervous system in three forms of megacolon, by A. E. Bishop, G. McGregor, D. M. Preston, B. D. Lake, S. R. Bloom and J. M. Polak 68

The S-100 brain protein in the human enteric nervous system, by G-L. Ferri, D. Cocchia, F. Michetti, L. Probert, P. J. Marangos and J. M. Polak . . . 68

An immunoperoxidase study of the secretory immunoglobulin system and lysozyme in normal and diseased gastric mucosa, by P. Isaacson . . 69

IgA plasma cells contain the serum protein pregnancy-associated α_2-glycoprotein (α_2-PAG), by C. H. W. Horne, S. S. Armstrong, A. W. Thomson and W. D. Thompson 69

Quantitative age changes in the histology of human oral mucosa, by J. Scott, J. A. Valentine, C. A. St Hill and B. A. W. Balasooriya 70

Hypothermia and acute pancreatitis, by A. K. Foulis 70

A parallel study of DOC/salt and post-DOC/salt hypertension in the rat, by R. Reid, G. Lindop and W. Brown . 71

The pathology of DOC/salt and post-DOC/salt hypertension in the rat, by G. Lindrop, R. Reid and W. Brown . . 71

Angiotensin-converting enzyme activity and evolution of pulmonary vascular disease in rats with monocrotaline pulmonary hypertension, by J. M. Kay, P. M. Keane, K. L. Suyama and D. Gauthier 71

Ultrastructure of lung in pulmonary veno-occlusive disease, by J. M. Kay, D. J. deSa and J. F. K. Mancer 72

Sclerosing haemangioma of the lung—a light microscopical, ultrastructural and histochemical study, by A. R. Gibbs, K. W. Chan, W. S. Lo and G. Newman 72

The assessment of rejection in human heart transplantation, by P. G. I. Stovin 73

Immunological analysis of cardiac transplantation, by G. D. Horkiss and D. L. Brown 73

In-vivo properties of platelet activating factor (PAF-acether), by A. Dewar, J. Morley, C. P. Page and W. Paul . . 73

Atherogenic inflammation, by M. J. Mitchinson 74

PAGE

Hypercholesterolaemia, dietary protein and experimental atherosclerosis, by P. J. Gallagher, N. J. Goulding and M. J. Gibney 74

Studies of aetiology of hypertrophic cardiomyopathy: an investigation of the mechanism of action of triac-induced myocardial damage, by P. C. Pearce, C. M. Hawkey, C. Symons and E. G. J. Olsen 75

A new concept of pathogenesis of dilated (congestive) cardiomyopathy, by E. G. J. Olsen 75

Serum immunoreactive prolyl hydroxylase and galactosylhydroxylysyl glucosyltransferase in clinically established chronic endomyocardial fibrosis, by Debayo M. Bolarin and J. J. Andy 76

Hyperplasia of the carotid body in myocardial hypertrophy, by P. Smith, R. Jago and D. Heath 76

The epithelial-matrix interface, by F. Walker 77

The distribution of amyloid P-component in normal human skin, by M. D. Hamon and F. Walker 77

The distribution of amyloid P-component in normal human cervix, by S. J. Clayton and F. Walker 77

Fibronectin in basal cell and squamous cell carcinomas of skin, by A. J. Hill and I. C. Talbot 77

Demonstration of fibronectin in synovium and mesothelium using the immuno-peroxidase technique, by C. E. H. du Boulay and A. Herbert 78

Does fibronectin determine the metastatic potential of adenocarcinoma of rectum?, by I. C. Talbot, P. Niemczuk, R. Perkins and D. R. Critchley . . . 78

Serological and immunohistological studies of the nature of reticulin, by K. W. Walton, D. L. Scott, D. J. Unsworth and E. J. Holborow . . . 79

The use of the lectin from lotus tetragonolobus in the study of human breast tissue, by Rosemary A. Walker . . 79

Promotion of tumours in the rat liver after initiation with a single dose of dimethylnitrosamine and dietary change, by A. E. M. McLean, M. Smith and Elizabeth Driver . . . 80

The search for tumour-photosensitizing porphyrins, by M. C. Berenbaum and R. Bonnett 80

The effect of cholera toxin and epidermal growth factor on the in-vitro growth of human cervical epithelium, by M. A. Stanley and K. Dahlenburg . . . 81

PAGE

Demyelinating spinal cord lesions in experimental allergic encephalomyelitis resembling multiple sclerosis in animals pretreated with ovalbumin and muramyl dipeptide (MDP), by J. Clover 81

Fatal injection with echovirus II in newborn children, by P. J. Berry and J. Nagington 82

Ocular infection of mice with a mutant Herpes Simplex Type 1 Virus resistant to acyclovir, by Janice R. Anderson and H. J. Field 82

Reduction in alkaline phosphatase content of rat polymorphonuclear leucocytes accompanying phagocytosis of *Candida albicans*, by W. Lu and D. M. Williams 83

A membrane-associated type-specific lipocarbohydrate antigen from Group B streptococcus type II, by C. G. Cumming, A. J. Hay, P. W. Ross and I. R. Poxton 83

A simple passive haemagglutination test for antibodies to Herpes Simplex Virus using monoclonal antibody mediated capture of antigen, by M. P. Cranage and C. S. McLean 84

Effect of *Clostridium perfringens* enterotoxin on tissue culture, by L. G. Guigliano, M. F. Stringer, G. Mann and B. S. Drasar 84

Cryopreservation of antibody-coupled red cells for use in immunoassays, by D. E. Pegg, M. P. Diaper, S. E. G. Yeo and R. R. A. Coombs 85

Immunohistochemical localisation of fibronectin in human rectal carcinoma, by P. Niemczuk, R. Perkins, C. Talbot and D. R. Critchley 85

Fibronectin in basal cell and squamous cell carcinomas of skin, by A. J. Hill and I. C. Talbot 85

The distribution of amyloid P-component in normal human cervix, by S. J. Clayton and F. Walker 85

The distribution of amyloid P-component in normal human skin, by M. D. Hamon and F. Walker 85

Chronic hypoxic pulmonary hypertension, by J. M. Kay, K. L. Suyama and P. M. Keane 86

The corticotropic cells of the dog pituitary in pituitary-dependent hyperadrenocorticism, by Anne M. McNicol, H. Thomson and C. J. R. Stewart 86

Immunogold staining procedure for the localisation of regulatory peptides in health and disease, by I. M. Varndell, F. J. Tapia, A. M. J. Buchan, L. Probert, J. De Mey and J. M. Polak . 87

Endocrine cell count in whole colonic crypts, by G-L. Ferri, A. Harris, S. R. Bloom, N. A. Wright and J. M. Polak . 87

Local application of capsaicin to one sciatic nerve induces significant, dose-dependent, decreases of peptide-containing C fibres in the lumbar spinal cord and skin innervated by the sciatic nerve of the adult rat, by S. J. Gibson, J. M. Polak, G. McGregor, S. R. Bloom and P. D. Wall 88

Morphological patterns and diagnostic criteria of VIP-producing endocrine tumours of the pancreas—a histological, histochemical, ultrastructural, and biochemical study of twenty-eight cases, by F. J. Tapia, J. M. Polak, C. Capella, R. Buffa, Ph. Heitz, E. Solcia and S. R. Bloom 88

Neuron specific enolase (NSE) in endocrine cells and nerves of the gut and pancreas, by A. E. Bishop, P. Facer, G. L. Ferri, A. G. E. Pearse, P. Marangos and J. M. Polak 89

Peptidergic innervation of the human urinary tract, by J. Gu, K. N. Islam, J. M. Restorick, G. P. McGregor, T. E. Adrian, S. R. Bloom and J. M. Polak . 89

Neuron-specific enolase (NSE) distribution in the respiratory tract of man and other mammals, by M. N. Sheppard, J. Wharton, P. J. Marangos, S. R. Bloom and J. M. Polak 90

Schizophrenia—alterations in the peptide content of the lateral thalamus, by G. W. Roberts, I. N. Ferrier, Y. C. Lee, A. J. Bacarese-Hamilton, G. McGregor, M. Ghatei, J. M. Polak, S. R. Bloom and T. J. Crow 90

Stability of monoclonal and polyclonal antibodies at room temperature for use in immunohistochemistry, by A Leatham and N. Atkins 91

Automated staining in immunohistochemistry, by N. Atkins and A. Leathem 91

Human hybridomas from patients with malignant glioma, by K. Sikora, T. Alderson and J. Phillips 91

The role of routine histopathology as a prognostic factor in childhood non-Hodgkin's lymphoma (C-NHL)—experience of children's cancer study group (CCG), by J. F. Wilson, D. Jenkin, J. Anderson, W. Sheehan, R. Chilcote, P. Coccia, P. Exelby, J. Kersey, C. Kjeldsberg, J. Kushner, A. Meadows, S. Leikin and D. Hammond 92

PAGE

Primary lymphomas of lung, by A. Herbert, D. H. Wright and J. L. Smith . 92
Immunostaining of neuron-specific enolase as a diagnostic tool for Merkel cell tumours, by J. Gu, F. Callea, G. Bussolati, P. J. Marangos and J. M. Polak 93
Patterns of staining for neurone specific enolase in melanocytic lesions of the skin, by A. P. Dhillon and J. Rode . . 93
Mapping and quantification of substance-P and VIP immunoreactivity in the UVEA, by G. Terenghi, J. M. Polak, G. P. McGregor, L. Probert, J. M. Butler, D. F. Cole and S. R. Bloom . 94
Cloning of mRNA from three developmental stages of the mouse and a human tumour marker, by K. A. Fleming, M. Tocci, J. Monahan and J. O'D. McGee 94
Staining of breast tissues and tumours with a monoclonal antibody to intermediate filaments, by C. A. Wells, J. Woods, D. Tarin and J. O'D. McGee . 95
Intermediate filaments in smooth muscle tumours, by D. J. Evans, I. A. Lampert and M. Jacobs 95
Nasopharyngeal carcinoma (NPC): immunohistochemical findings, by P. Meister, W. Nathrath, E. Wilmes and H. Wolf 96
Anaplastic carcinoma (lympho-epithelioma) of the nasopharynx, by I. Wright 96
Mapping of tumours with multiple markers applied to carcinoma of the kidney, by A. Leathem and N. Atkins . 96

PAGE

TESTIS, X-ray microanalysis of the Michaelis-Gutman bodies of malakoplakia 41
THYMUS, response of the murine lymphoid system to a chronic infection with *Trypanosoma congolense*. The lymph nodes, thymus and liver 273
TOXICITY of the immune suppressant Cyclosporin A in the rat 163
TRACHEOPATHIA OSTEOPLASTICA, study of the minimal lesion 235
TRYPANOSOMA CONGOLENSE infection, response of the murine lymphoid system to 273

X-RAY MICROANALYSIS, tissue reactions to implanted dental amalgam . . . 251
